At the Mansa, Chauvin, Tuesday morning, Dec. 16th, the marriage of Miss Jeanne Price, of Ribstone, to Basil Murray was performed by Rev. MacKenzie. The ceremony was of a quiet nature, the bride being attended by her sister, Hilda, and the groom by Donald Martin. The happy couple had quite an adventure on their road to town. The evening broke, owing to heavy drawing through the deep snow drifts. However, after a little trouble and a half hour delay they reached the manse none the worse for the episode.

After the ceremony they returned to Ribstone; and will early in January leave for Ontario where they will in future reside.

The best wishes of the community will follow the popular bride and we all hope the happy couple will enjoy long and happy life.

WINTER FEEDING AND HOUSING FALL LITTERS

(Experimental Farms Note)

The fall farrowed litter must be housed and fed under more or less artificial conditions in this climate during the winter. The rapidly developing pigs demand mineral matter for the building of bone and muscle, meal and other feeds in a relatively concentrate form, and also some form of succulency to assist in the normal functioning of the digestive organs.

There are many mineral feeds available in both organic and inorganic forms and these include charcoal, bone meal, tankage, wood ashes, bone black, ground limestone, earthy matter or soda, etc. These may be fed in hop pers, or if finely ground, may be added to the meal ration at the rate of a few pounds per hundred of meal.

Better Rubber Footwear at the Regular Price

If RHINO Rubber Footwear weren't better—if it didn't wear longer—we would not support the iron-clad guarantee that goes with every pair.

These facts hold good with all RHINO Rubbers. Note the Protector flap on rubber shoe illustrated. It is an exclusive, patented RHINO feature. It effectively

prevents dirt, manure, snow or moisture from getting inside.

This Footwear is made from RHINO RUBBER—the toughest and most wear-resisting that Science has yet discovered—which will wear up to twice as long as ordinary rubber. Insist on RHINO Footwear.

the hogs in the form of roots, or potatoes if roots are not available. The potatoes give better results when boiled and mixed with meal. The roots may be pulped and mixed with the meal ration or fed whole, but for the younger pigs they should be pulped.

A meal ration composed of equal parts of shorts, middlings and finely ground oats is suitable for pigs from ½ to 3 months of when supplemented with about 3 per cent of linseed oil meal and skim milk.

A well developed pig of that age will consume about 1 pound of this meal mixture and 5 pounds of milk per day. Tankage or meat meal may be substituted for the milk at the rate of 6 to 8 per cent of the meal ration but seldom gives as good results.

For older pigs a mixture composed of ground oats, 2 parts; shorts, 1 part; middlings, 1 part; bran, 1 part; barley, 1 part; and linseed oil meal 3 per cent gives good results. A variety of meals is usually better than a single meal. An equal quantity of roots may be added to 4 months of age, but carefully avoid overfeeding.

In housing, the main features to keep in mind are cleanliness, suitable ventilation and the supplying of a reasonable dry sleeping berth. If this berth is situated in a shed or draughty building it should be enclosed. Pigs will do better in a shed than in a dark, damp, poorly-ventilated corner of the stable even though the stable is considerably warmer.

Cramped quarters are to be avoided, as daily exercise is as desirable as proper feeding.

A PLAIN TALK

There are people who are always putting their heart into the wrong thing. They work at play and play at work. If they put as much earnest discussion into ways and means, into some new manufacturing process, into some new invention, some scheme, as they put into their play, there would be little danger of Canada falling behind in the commercial race.

It is not a bad plan to make a hobby of your job. The man who does his work well is an asset to the nation. The man who doesn't is a drag on the wheel of progress.

"How small, of all that human hearts endure,
That part which laws or kings
can cause or cure?"

You'll seldom find a shirker who really enjoys himself. You will often find a worker who enjoys both his work and his play.

The man on top is sometimes just standing on his friend's shoulders

place your order at once, because

DO YOU WANT FEED?

Those requiring feed are re
minded by G. G. Shantz, the
Chauvin miller, that each bushel
of wheat ground for flour yields
about 20 lbs of feed. This solves
two problems at once, better

without further delay.

Here and There

Agricultural products harvested
in British Columbia during 1923
were nearly \$4,000,000 in excess of
the 1922 total, according to the an
nual report of the provincial depart
ment of Agriculture. Total produc
tion for 1923 was \$50,159,798.

The ninth winter carnival at
Banff, Alta., will be held from Feb
ruary 7 to 14, 1925. The curling
bonspiel in connection with the car
nival will run concurrently from
February 9 to 14. Revelstoke has
fixed its carnival dates for February
3, 4 and 5, 1925.

Tourists to the number of 100,000
are estimated to have entered the
Province of Nova Scotia during the
past season. These people have left
approximately \$7,600,000 in the
province, an increase of 25 per cent
over the previous year. The num
ber of motor cars entering the prov
ince during the tourist season ex
ceeded 11,000.

Canada Book Week was held from
December 1 to 6 this year. Ad
dresses, radio broadcasting and
special displays in stores through
out the country drew attention to
the objects of the week, which was
to promote the reading of good
books generally and to foster Can
adian literature. The week was, as
usual, a distinct success.

The foolhardy recklessness of
certain motorists was recently strik
ingly illustrated at a public cross
ing on the Canadian Pacific Rail
way line at Blind River, Ontario, when
a speeding auto approached the
crossing so rapidly that the driver
was unable to stop and ran his
car into the side of a train which
was passing at the time. Fortu
nately, no one was injured.

In recognition of its excellent ex
hibits at the 1924 exhibition at To
ronto, the Canadian Pacific Rail
way has been awarded one of the
medals specially struck off for pre
sentation to the Dominion and Pro
vincial governments, and to a limited
number of other exhibits whose
high class entries in the live stock
and agricultural departments won
them championship prizes.

The plans for the construction of
an immense amusement centre at
Victoria, B.C., to be called the
Crystal Gardens, have just been an
nounced by the Canadian Pacific
Railway, which is responsible for
The scheme. The gardens will in
clude a salt water swimming pool,
150 feet long, and a series of dan
cing floors, with tea rooms and
gymnasium. Great quantities of
plants, vines and shrubs will be
grown in the structure, which is
on the lines of a vast conservatory,
containing 26,000 square feet of
glazed glass roof surface.

A considerable increase in the
sheep population of Canada, which
has declined since 1920 from 2,255,
020 to 1,575,000, is expected as a
result of the recent importation by
Alberta ranchers of 400 Rambouillet
rams. These animals are merinos,
with fine wool, bred in France from
Spanish merino stock. Louis XVI
obtained the first flock as a gift
from the King of Spain. A brood
of 20,000 western range ewes will
be provided for the Alberta pur
chase. The enterprise is important
on account of the prevailing wool
shortage of wool.

SUCCESS

And thoughtless people call it
A careless doing—bit of pluck—
"luck"!

A wedding—sowing—all the day;
Folks cry: "Good fortune's come
your way!"

Few people realize, it seems
That real success means more
than dreams.

To make it ours we climb life's
hill
With feet that plod—and daunt
less will!

"May I have the next dance,
please, Miss Smithers?"

"Sorry, I'm engaged."

"What does that matter? I'm
married!"

The guests invited to a wed
ding are not counted by their ab
sence, but by their presents.

The total deaths of the Province showed a decrease of 539 from 1922 figures. There were 15,153 births registered during 1923, and 4,111 marriages, a decrease from the previous year. Appointed Director Canadian Pacific

Ross Huntington McMaster

The recent election of Mr. Ross Huntington McMaster to be a director of the Canadian Pacific, filling the vacancy created on the board by the death of the late Lord Shaughnessy, is a recognition on the Company's part of his long-proved ability. Mr. McMaster is already vice-president and director of the Steel Company of Canada and director of the Northern Electric Company, as well as the Canadian Explosives Company. Born in Montreal in 1880, he has lived practically all his life in that city. He was educated at the Montreal High School and Collegiate Institute. His business career began with the Sherwin Williams Co., of which he became assistant to the vice-president and general manager in 1897, a post he held until 1903. In the latter year he was made assistant to the vice-president and general manager of the Montreal Rolling Mills Company. On the formation of the Steel Company of Canada he was appointed manager at Montreal.

BATTLE VALLEY ENTERTAINMENT

If a full school were a crowd, then there was a multitude at the Battle Valley concert and dance December 12th.

The excellent program put on was supplemented by a piano duet by Mrs. R. Kingston and Miss F. Burbridge; a violin solo by Eddie Swindlehurst; song by Harry Johnson and seven selections by Charlie Bell.

After the dance the well loaded Christmas Tree was dismantled.

Dancing was begun with difficulty as it seemed almost impossible to clear a space unless half the crowd moved outside. After persistent efforts the dance got into full swing.

Chauvin, Edinlassie, Ribstone, Edgerton, Roros, Bloomington, Pelican Lake, Empire and Oxville were well represented.
